

Downsized 3-Way Control Valve Cutaway

Model: 256D

DAC Worldwide's Downsized 3-Way Control Valve Cutaway (256D) is an economical, sectioned valve sample that allows for convenient classroom training in the operation, construction, and maintenance of a pneumatically-operated, 3-way control valve. Through carefully-planned sectioning, the complete internal configuration of the valve is exposed and showcased. Seal features and hardware locations have been retained, allowing for “hands-on” training in maintenance.

FEATURES & SPECIFICATIONS

Important Product Note: Photographs are representative and for reference only. Product appearance and dimensions may vary based upon component manufacturer and availability. Any product dimensions given, such as size and weight, are approximate and for directional use only. For the most accurate shipping dimensions and weights, please contact the manufacturer.
