

Barrel Choke Valve Cutaway

Model: 295-711

DAC Worldwide's Barrel Choke Valve Cutaway (295-711) is an actual industrial valve sample that allows for effective classroom or laboratory training in the operation, construction, and maintenance of a fixed (bean-type) choke valve.

These industrial valves are commonly used in oil and gas production operations and often found on wellhead assemblies, production manifolds, and kill manifolds.

Through carefully-planned sectioning and color-coding, the complete internal configuration of the choke valve is exposed and showcased. Seal features and hardware locations have been retained, allowing for "hands-on" training in disassembly and maintenance.

FEATURES & SPECIFICATIONS

- Sectioning of actual hardware, providing a complete view of the flow channel, bean insert, and seat (common choke valve brands and models chosen, per API 6A, for industrial training relevance).
- Cleaning, priming, and painting using a high-durability, urethane coating.
- Color-coding of valve body, internal surfaces, seat, and closure devices using contrast colors.
- Replacement plated hardware where necessary.
- All gaskets, seals, and seats shown.

- Formed-steel, 7-gauge mounting baseplate with provision for tabletop mounting and mounting on related DAC Worldwide bench, workstation and display rack products.
- Packaging for shipment via motor freight.

PRODUCT DIMENSIONS

- **Product Dimensions**

(L x W x H)

18 in x 13 1/2 in x 17 in (460 x 345 x 430 mm)

95 lbs (43 kg)

- **Shipping Dimensions**

(L x W x H)

15 1/4 in x 34 in x 23 1/2 in (390 x 865 x 600 mm)

120 lbs (54 kg)

OPTIONS

- Recommended #902V Mobile Display Stand
