

Canned Sealless, Centrifugal Pump Cutaway (Crane/Chempump)

Model: 278-140

DAC Worldwide's Canned Sealless, Centrifugal Pump Cutaway (Crane/Chempump) (278-140) depicts a sectioned industrial "canned" centrifugal pump allows for convenient and realistic classroom training in the operation, construction, and maintenance of this common process pump used in various sectors worldwide.

Selected and assembled to support introductory process operations and maintenance training programs, this real-world learning solution provides the same utility found in equipment used on-the-job. The full-size, fully-detailed example of an actual real-world canned centrifugal pump gives learners a first-hand view into a component that is found in various applications worldwide.

All of the pump's components have been retained, allowing for thorough, one-of-a-kind training experience using these common pieces of process equipment.

DAC Worldwide's Cutaways Enhance Training with Hands-On Industrial Components

The Canned Sealless, Centrifugal Pump Cutaway (Crane/Chempump) provides a realistic training introduction to industrial canned centrifugal pump components. The pump's components are industrial-grade made by leading manufacturers, mimicking what students might encounter on-the-job for industrial relevancy.

Carefully-planned cut way areas and color-coding combine to showcase the internal configuration of the pump. Hardware locations, motor features, and bearings are retained, allowing for use in maintenance-related training. This realistic teaching aid will make introductory courses in specialty centrifugal pump maintenance and operation more productive, realistic, and memorable, enhancing the learning process for all parties involved.

Additionally, the equipment used within the trainer is cleaned, primed, and painted using a high-endurance urethane coating, providing durability to stand up to frequent use.

Expand Training with Additional Pump and Compressor Model Options

The Canned Sealless, Centrifugal Pump Cutaway (Crane/Chempump) is only one of DAC Worldwide's expansive

pump cutaway devices, which also include the Vertical Submersible Pump Cutaway (278-120), the Sanitary Pump Cutaway (278-131DS), the Hand-Operated Sliding Vane Pump Cutaway (278-138), the Magnetic Drive Centrifugal Pump Cutaway (Goulds/IR/Durco/Flowserve) (278-150), and many more!

FEATURES & SPECIFICATIONS

Important Product Note: *Photographs are representative and for reference only. Product appearance and dimensions may vary based upon component manufacturer and availability. Any product dimensions given, such as size and weight, are approximate and for directional use only. For the most accurate shipping dimensions and weights, please contact the manufacturer.*

- Sectioning of an actual industrial canned, sealless, pump. *(Examples from well-known manufacturers are chosen for industrial relevancy)*
- Cleaning, priming, and painting using a high-durability urethane coating
- Color-coding of cutaway surfaces and process surfaces using contrasting colors
- Replacement plated hardware, where necessary
- All gaskets, and bearings are retained
- 7-Gauge, formed-steel baseplate with provision for tabletop mounting, or mounting on related DAC workstation and storage products
- Crating for shipment via motor freight

PRODUCT DIMENSIONS

DISCLAIMER: *Product Dimensions are approximate. Shipping Dimensions and Weights are for directional use only and may change based on manufacturer variables. For the most accurate Shipping Dimensions and Weights, please contact the manufacturer.*

- **Product Dimensions**
(L x W x H)
12in x 14in x 19in (305 x 355 x 482mm)
- **Shipping Dimensions**
(L x W x H)
15" x 28" x 24" (381 x 711 x 609mm)

OPTIONS

- Recommended #902F - Electromechanical Workstation
