

Dissectible Valve Assortment

Model: 270K

DAC Worldwide's Dissectible Valve Assortment (270K), a six-piece assortment of individually-mounted, re-manufactured industrial valves, allows for classroom training in the design, operation, construction, and maintenance of common valve types found in industry. The fully-detailed examples of industrial valves give learners a first-hand view into a component that is found in various maintenance applications worldwide.

This basic mechanical valve dissectible assortment includes a total of six valves, each of which includes carefully-planned sectioning and color-coding, allowing the complete internal configuration of each valve to be exposed and showcased. Seats and closure devices are color-coded, while seal features and primary hardware locations are retained, allowing for hands-on learning.

The Dissectible Valve Assortment includes:

- [Dissectible Gate Valve \(251K\)](#)
- Dissectible Globe Valve (252K)
- Dissectible Ball Valve (253K)
- Dissectible Butterfly Valve (254K)
- Dissectible Diaphragm Control Valve (255K)
- Dissectible Swing Check Valve (257K)

Enhance Training with Hands-On Dissectible Industrial Components

This Dissectible Valve Assortment provides a realistic training introduction to industrial valve components, which will make introductory courses in valve maintenance and operation more productive, realistic, and memorable for

learners. The Dissectible Valve Assortment components are industrial-grade, mimicking what students might encounter on-the-job.

These dissectibles features carefully-planned exposed areas that are individually mounted, and possess the ability to be removed from the baseplate for convenient classroom use. All of the dissectibles' gaskets, seals, and seats are also visible, enhancing students' visual learning. Additionally, the seal features and hardware locations have been retained, allowing use for hands-on training in maintenance.

The equipment used within the trainer is cleaned, primed and painted using a high-endurance urethane coating, providing durability to stand up to frequent use.

FEATURES & SPECIFICATIONS

- Complete new industrial valve assemblies (common valve makes and models chosen)
- Cleaning, priming, and painting using a high-durability urethane coating where needed
- Replacement plated hardware throughout, where necessary
- All gaskets, seals, and seats retained
- Welded formed-steel, 10-gauge mounting stands with provision for tabletop mounting
- Provision for mounting on related bench, workstation, and storage rack products
- Packaging for shipment via motor freight

Includes:

- 251K - Dissectible Gate Valve
- 252K - Dissectible Globe Valve
- 253K - Dissectible Ball Valve
- 254K - Dissectible Butterfly Valve
- 255K - Dissectible Diaphragm Control Valve
- 257K - Dissectible Swing Check Valve

OPTIONS

- #530-000 - IPT Pipe Trades Training Manual
- #530-001 - IPT Pipe Trades Handbook
- #902V - Mobile Display Stand (Recommended)
