

# Downsized Lift Check Valve Cutaway

Model: 257LD

DAC Worldwide's Downsized Lift Check Valve Cutaway (257LD) is an economical, yet realistic, sectioned valve sample that allows for effective classroom training in the design, operation, construction, and maintenance of an industrial lift-type check valve. Through carefully-planned sectioning and color-coding, the complete internal configuration of the valve is exposed and showcased. Seal features and hardware locations have been retained, allowing for “hands-on” training in disassembly and maintenance.

## **FEATURES & SPECIFICATIONS**

***Important Product Note:*** Photographs are representative and for reference only. Product appearance and dimensions may vary based upon component manufacturer and availability. Any product dimensions given, such as size and weight, are approximate and for directional use only. For the most accurate shipping dimensions and weights, please contact the manufacturer.

- Sectioning of actual hardware, providing a complete view of the piston, cage, seat, and guide
- Common valve makes and models chosen for industrial training relevancy; 0.75-in. NPS pipe examples are most often used
- Cleaning, priming, and painting using a high-durability, urethane coating
- Color-coding of valve body, internal surfaces, seat, and closure devices, using contrast colors
- Replacement, plated hardware, where necessary
- All gaskets, seals, and seats shown
- 13-Gauge, formed-steel, mounting stand with provision for tabletop mounting and mounting on related DAC bench, workstation, and display rack products
- Steel, flanged support and connecting piping

## **PRODUCT DIMENSIONS**

- 9-in. L x 12.25-in. W x 8.5-in. H (229 x 310 x 215 mm)

**DISCLAIMER:** *Product Dimensions are approximate. Shipping Dimensions and Weights are for directional use only and may change based on manufacturer variables. For the most accurate Shipping Dimensions and Weights, please contact the manufacturer.*

## **OPTIONS**

- Recommended #902V - Mobile Display Stand
