

# Extended Electromechanical Workstation

Model: 903F

DAC Worldwide's Extended Electromechanical Workstation (903F) is a heavy-duty, multi-functional training bench and workstation. It accommodates a wide range of DAC Worldwide mechanical, electrical, fluid power, and HVAC products. It includes two shelves and leg levelers.

Allowing for configuration in a variety of ways and incorporating heavy-duty construction techniques, the heavy-duty training bench allows for learning to occur more conveniently and efficiently.

Heavy-gauge steel shelves with mounting holes allow direct mounting of all DAC Worldwide mechanical, fluid power, and HVAC product baseplates, as well as storage of loose components and tools. 14-gauge tubular steel support frames, in combination with premium, non-slip levelers, ensure a stable foundation.

Optional components allow the Extended Electromechanical Workstation to be modified for other purposes, including use as a mounting rack display support or as a workstation for multiple motor and motor control training products.

---

## **FEATURES & SPECIFICATIONS**

- Two 12-gauge, 24" x 60" x 1" deep, formed-steel shelves with provision for mounting all DAC Worldwide mechanical, fluid power, and HVAC product baseplates.
- Two welded support frames fabricated from 14-gauge, 1-1/2" square tubing.
- High-durability, powder-coated surfaces throughout, allowing for repeated use and rough handling.
- Four 2"-diameter levelers with vibration dampening anti-skid pads and leveling lock nuts.
- Provision for mounting DAC Worldwide electrical products using optional t-slot rail sets.
- Provision for mounting all DAC Worldwide cutaway products using optional t-slot rail sets.
- Provision for mounting all primary mechanical training elements directly using optional extended t-slot rail set.
- Hardware pack, including sufficient hardware for mounting a variety of devices.

- Fastener kit.
- Assembly instructions.
- Shipped knock-down.
- Packaging for shipment via motor freight.

## **PRODUCT DIMENSIONS**

- **Product Dimensions**  
(L x W x H)  
33" x 63" x 40" (838 x 1600 x 1016 mm)  
140 lbs. (64 kg)

## **OPTIONS**

- #902-001 - Locking caster set (includes four dual-wheel, locking casters) (recommended when used as a display rack only).
- #902-002 - Supplemental t-slot rail set (includes four 1.5" square, 48" long, t-slot mounting rails).
- #902-003 - Supplemental t-slot rail set, extended (includes six 1-1/2" x 3" x 43" long, t-slot mounting rails, creating a 9" wide mounting area on two shelves).
