

Mobile Display Stand

Model: 902V

DAC Worldwide's Mobile Display Stand (902V) is a heavy-duty, multi-functional training workstation, accommodating a wide range of mechanical training products and cutaways.

Allowing for configuration in a variety of ways, and incorporating heavy-duty construction techniques, this accessory allows training to occur more conveniently and efficiently.

Two, 14-Gauge, tubular steel support frames, in combination with heavy-duty, t-slotted, mounting rails create a stable, yet flexible structure for mounting demonstrators, models and cutaways.

Optional components allow the workstation to be modified for other purposes, including use as a training workstation.

FEATURES & SPECIFICATIONS

- Two, welded support frames fabricated from 14-Gauge, 1.5-in. square tubing
- High-durability, powder coated surfaces throughout, allowing for repeated use and rough handling.
- Four, 2-in. diameter, dual-wheel casters with locks
- Four-piece, aluminum, t-slot rail set, accommodating the primary mounting centerlines of applicable

products

- Hardware pack, including sufficient hardware for mounting a variety of devices
- Shipped knock-down
