

# Rotary Screw Compressor Cutaway

Model: 211-192

## DAC Worldwide's Rotary Screw Compressor Cutaway

(211-192) is a realistic, sectioned rotary screw compressor as commonly found in manufacturing plants, and other industrial applications. This device includes a 7-gauge formed-steel mounting baseplate, allowing for stand-alone use, bench-top mounting, or mounting on specialized DAC mounting workstations. Through sectioning, the complete internal configuration of this compressor can be seen, while allowing for disassembly for more complete inspection. All primary features and the basic flow path have been retained, and replacement hardware is provided where appropriate.

---

## **FEATURES & SPECIFICATIONS**

**Important Product Note:** *Photographs are representative and for reference only. Product appearance and dimensions may vary based upon component manufacturer and availability. Any product dimensions given, such as size and weight, are approximate and for directional use only. For the most accurate shipping dimensions and weights, please contact the manufacturer.*

- Sectioning of actual industrial hardware; common compressor makes and models chosen for industrial relevancy
- Cleaning, priming, and painting using a high-durability urethane coating
- Color-coding of component parts
- Replacement, plated hardware, where required
- 4-Gauge, formed-steel, powder-coated baseplate with compressor attachment piers
- Provision for mounting on related DAC bench and workstation products

## **PRODUCT DIMENSIONS**

- 13.5-in. L x 18-in. W x 17-in. H (343 x 457 x 432 mm)

**DISCLAIMER:** Product Dimensions are approximate. Shipping Dimensions and Weights are for directional use only and may change based on manufacturer variables. For the most accurate Shipping Dimensions and Weights, please contact the manufacturer.

## **OPTIONS**

- Recommended #902F Electromechanical Workstation
