

Sliding Vane Pump Dissectible (Foster/Pulsafeeder/Corken/Blackmer)

Model: 275-139

DAC Worldwide's Sliding Vane Pump Dissectible (Foster/Pulsafeeder/Corken/Blackmer) (275-139) is a realistic industrial pump for use in classroom and laboratory training relating to process pumps. Actual industrial sliding vane pumps from well-known manufacturers, such as Foster, Pulsafeeder, Corken, and Blackmer, are chosen for industrial training relevance.

This dissectible has been restored, repainted, and mounted on a modular steel baseplate. It includes a small tray to store parts during tear down. It can also be mounted on related DAC Worldwide bench, workstation, and storage products.

All features have been retained and replacement hardware provided where necessary.

FEATURES & SPECIFICATIONS

- 7-gauge, formed-steel, powder-coated baseplate with provision for bench-top, workstation, and storage rack mounting.
- Restoration of actual industrial pump (common manufacturers and models are chosen for industrial relevance).
- Painting, when necessary, using a high-durability urethane coating.

- Replacement hardware, where necessary.
- Applicable installation and maintenance manual from original manufacturer.
- Crating for shipment via common carrier.
